

## Granite Comparator Stand

Brand: Optronics

Category: Granite Comparator Stand

Granite Comparator Stand is a well designed stand for precision measurement by mounting various of measuring instrument such as dial guage. Granite base will provide great stability for precision measurement and provides high accuracy.

### Advantages

- Natural granite is used for comparator stand
- Provide great stability and high accuracy
- Ease of maintenance as base (granite) never suffers from rust
- Flexible mounting holder enable user to mount variuos types of instruments

### Physical Properties

Compression strength:	245-254kg/mm2
Coefficient of linear expansion:	4,6×1-6°C
Water absorption:	0.13%
Table Seat Level:	00 Level (0.003)
