

MASTER

Brand: Tomelleri

Category: Portable Measuring Arm CMM

A NEW HANDLING EXPERIENCE

Our newest solution for touch measures. Redefine your daily operations with unmatched flexibility, style and reliability. Available from 2 to 3,5 meters diameter, certified with ISO 10360-12.

Features

1. New home position
2. Long-lasting battery
3. Exceptional maneuverability

1. New home position

The MASTER arm comes with a new home position allowing an easy take and easy repositioning. A small mechanical lever automatically locks the instrument in home position and can be easily unlocked, or even de-activated, for a handling experience of unprecedented freedom.

2. Long-lasting battery

Thanks to the high capacity battery pack and to the optimized power consumption, the MASTER arm enables extended measuring sessions, exceeding 20 hours, without requiring a power supply connection.

3. Exceptional maneuverability

Thanks to the high capacity battery pack and to the optimized power consumption, the MASTER arm enables extended measuring sessions, exceeding 20 hours, without requiring a power supply connection.

CONFIGURATIONS

- With 6 or 7 axes configuration
- With fixed probe or Autojoint interchangeable system
- With cabled or wireless communication
- With 3 points fixation or 3,5 inches threaded connection
