

## SPACE

Mechtro SDN. BHD.

**Brand:** Tomelleri

**Category:** Portable Measuring Arm CMM

### ESSENTIAL IN CONFIGURATION, EXCELENT IN PERFORMANCE

One of the most appreciated solutions, from 1.8 up to 3.2 m diameter. Since the invention of the Articulated Arms, the SPACE lines represent the brand all over the world, now renewed to give the best usage experience.

#### Features

1. MECHANICALLY BALANCED
2. ESSENTIAL, WORKING GREAT
3. SAFE

#### 1. MECHANICALLY BALANCED

The SPACE line is balanced thanks to a couple of mechanical springs, a reliable solution that allow the user to move the instrument without loads. The result is an incredible accuracy, obtained under an very comfortable handling experience.

#### 2. ESSENTIAL, WORKING GREAT

With dimensions from 1.8 up to 3.2 m diameters, the SPACE line covers the majority of the measuring ranges requested by the market. With the same compatibility of the SPACE Plus and EXPLORER lines, the SPACE represents the perfect compromise to enter in portable arms world: essential in configuration, but excellent in performance.

#### 3. SAFE

The SPACE line is kept in its home position thanks to a magnetic brake, to prevent accidental falls when is moved on a tripod or in other similar situations.

#### CONFIGURATIONS

- With TOMELLERI magnetic mount
- Autojoint (Interchangeable Probe system)
- Wireless configuration
